THE "QUALITY" OF OUR BULBS

In the purchase of Gladiolus bulbs, the buyer must depend much upon the ability and knowledge, as well as the integrity of the grower, for many of the values of the bulbs are hidden from sight.

Perhaps first of all comes the selecting by the grower of the varieties he will produce and offer for sale. Ideas and tastes in the love of Gladiolus are various, and change, and it is with this thought that we are always seeking newer and better varieties to fill the needs of our discriminating customers who will have "nothing but the best."

Every phase of the industry, including the choosing and preparation of the fields for planting, the cultivation and growing, the digging and curing, the handling, storing and shipping of the bulbs, all have a most important bearing on high quality.

Each of these operations receives our personal and intimate supervision to the end that no detail is overlooked which will make it possible to add more quality.

The blooming ability of our bulbs is best vouched for by the many thousands of customers in all parts of the world who have bought and grown our bulbs, year after year with greatest satisfaction. Thousands of visitors at the Minnesota State Fair in 1924, 1926 and 1928 will still remember our exhibits as **First Prize Winners**. In 1928 we were awarded 18 first prizes or twice as many as any other Exhibitor.

The Season of 1932 being the third successive season of drought in this locality, consequently a very large deficit of moisture accumulated over the three-year period and without any facility for irrigating our fields, this condition did not produce the largest and best flowers to be sure, but not having exhibited our Glads for three years we felt it was necessary to do so, lest some may think we had gone out of business. To our great surprise and satisfaction, we received **First Prize** on our Grandiflorus Collection; **First Prize** on Primulinus Collection, and a large number of **First Prizes** on the Color Classes, besides the **SWEEPSTAKE PREMIUM** for the best three spikes in a vase, this is the most coveted Prize offered in the Gladiolus Section.

In this connection wish to state that the competition has increased tremendously, not only in number of Commercial exhibits, but also in the number of the newer and better class of Glads. All in all our Exhibits won more First Prizes than any other of the seven Commercial exhibits. All this in face of the fact that we were the only Grower that suffered from drought, others had either rains or facilities for artificial watering, which is an invaluable asset in the production of fine flowers. The above facts completely explodes the theory that it is necessary to plant only young, plump, high crowned bulbs (first year from Bulblets) to obtain best results. To the contrary all the Prize Winners we grew from two and three year old bulbs that were produced under the most adverse conditions. 1931 was not only the driest but also the hottest summer here that we remember. Besides all the finest, plumpest bulbs were picked out to fill orders with. We had only the thin, scroniest looking bulbs left for our own planting. This is conclusive proof that the shape or plumpness of a bulb has nothing to do with the size of flower it will produce. The most important factor as we have learned by actual experience, and proved beyond all doubt, is in the selection of disease-free stock, proper curing, correct storing conditions, never ceasing care and watchfulness in keeping the stock through the winter in the very best growing condition.

Buy with Confidence

In placing your order with us you are absolutely sure of getting the very best **Blooming Quality** of Bulbs that are humanly possible to produce. True to name, free from disease. Liberal grading, full count and more.

SIZES OF BULBS

For the convenience and economy of our Customers, we are offering small lots in 3 different sizes only which enable us to supply their wants at the unheard of low **Money Saving Prices** as outlined in this List.

Different varieties vary a great deal in size of Bulbs they produce; some varieties hardly ever make a larger Bulb than $1\frac{1}{4}$ inch in diameter, while other varieties produce Bulbs up to 3 inches and even larger in our soil. This variation is in no way any indication of the size and quality, or beauty of the flower a certain bulb will produce. For instance, a bulb $1\frac{1}{4}$ inch, two years old from Bulblets, if well grown, well cured, healthy and firm, will produce just as large a flower as another bulb much over-sized, in some cases better, if the much over-size bulb has been produced by over-feeding, over-watering, etc., which have a tendency to make it soft and has less vitality to withstand adverse growing conditions. And then again a bulb of any size may be too old to produce the best blooms (our experience has proved a bulb, two or three years from Bulblets ordinarily produce best blooms). This is the kind we supply our customers and termed Large Blooming Size and indicated in our List by letter "L".

We recommend the "LARGE" blooming size for best immediate results.

"MEDIUM" size bulbs indicated by "M" in the List include sizes number 3 and 4 and measure $\frac{3}{4}$ up to 1 inch and over in diameter, and are termed Medium Blooming Size. All should bloom first season, but a little later than the large bulbs and generally smaller flowers proportionately.

"SMALL" size indicated by "S" include sizes No. 5 and 6 and run from $\frac{3}{8}$ to $\frac{1}{2}$ inch and over, most of these little bulbs will bloom the first year, but at the best produce small inferior flowers, as compared with those produced from large bulbs, but will make good blooming bulbs for the following season and are much more satisfactory to buy to grow on than Bulblets which are more or less uncertain, on that account may prove more expensive in the end.

"BULBLETS"—while we don't recommend the buying of bulblets to the average home gardener, we will supply them as far as we can at one-tenth the price of a large bulb. For instance, one large bulb, priced \$2.00 each, a Bulblet would cost \$.20 selected good size. In cheaper varieties will supply them at \$.25 a package, not counted, but always a very generous lot for the money. Bulblets sold in larger lots by 1,000, or by measure are **Field run**, only the small ones screened out through a six or eight mesh sieve, according to variety.

"Larger Quantities" are offered on the last pages of this List at amazingly low prices, in lots of 25 to 250 of a kind and size; graded in the six standard sizes according to A. G. S. classification.

All Prices in this List include Transportation. We Prepay all Cash orders to all parts of the U. S. A. by Express or Parcel Post (our choice) so you will know exactly how much your bulb order will cost you. In buying on the F. O. B. basis the Postage or Express charges may come to a lot more than the cost of the Bulbs, depending on the sizes you buy and the distance they are shipped to. Bulbs have never before been offered so cheap, at the same time Parcel Post rates have "gone up", kind "O" burning the candle at both ends. Our loss is your gain when you buy at **Prepaid Prices**.

WHOLESALE LIST

To DEALERS, GROWERS, LARGE ESTATES, ETC., who wish to buy in Large Quantities we issue a Special List with F. O. B. Prices, as low as the lowest offered by any **Responsible Grower**, for equal quantity and on same F. O. B. basis. If interested this List will be mailed on request.

TERMS

Our terms is Cash with order, or 25% deposit with order will hold until April 1st, balance before shipping. No Deviation at present prices. We have been forced to close our Credit Department, at least until we are able to "Balance the Budget." Postal or Express Money Orders, Bank Draft, or good personal check will be very acceptable. "The Bigger the Better." (No Postage Stamps, please.)

TO WINNERS OF PRIZE BULBS

At the National as well as at all other Glad Shows where we have offered premiums in certain classes, will please select such prize bulbs they wish from varieties LISTED BY TEN, as we are very short on most kinds listed by ONE. Kindly make second choice known. We want to please in every way possible.

THRIPS: Our fields were inspected at blooming time by both Federal and State Inspectors; not a sign of thrip could be found. State Inspector has again gone through our stock in storage, again not a thrip to be found. Therefore, you are absolutely safe in buying your bulbs from us, that you are not importing this dreaded Pest.

STATE INSPECTION CERTIFICATE No. 3148 for Season 1932-33, attached to each shipment to show our stock is FREE from disease and dangerous Pests.

GUARANTEE: We guarantee all varieties listed herein to be true to name, and FREE from disease and dangerously injurious insects. But we cannot assume any responsibility for crops, which is beyond our control, or for subsequent mixing of varieties after stock is in other hands. But if any Bulb or Bulblets bloom, not true to name first season, bought of us, will gladly replace same in equal value the following year. If unable to fill any order complete, your money will be promptly refunded.

We wish to thank our Customers for all the favors received, and assure you of our deep appreciation. It shall always be our aim to continue serving you in the future the same as in the past, to be worthy of your confidence and continued patronage. We thank you!

Sincerely yours,

A. J. ANDERSON,

Many "Home Gardeners" don't care enough about names of their Glads to go to the trouble to keep their different varieties separate, and eventually mix them all together. To better meet all requirements, we will supply well balanced mixtures of All Named Varieties NOT LABELED.

SPECIAL MIXTURES: All Large Blooming Size for \$2.50 NET per 100, PREPAID.

SPECIAL MIXTURES: Medium Blooming Size for \$1.25 NET per 100, PREPAID.

DeLUXE MIXTURES: This mixture will be made up of all named varieties that would cost two to three times as much if each variety were labeled and will include a well balanced mixture of the most wanted colors and types, values that defy duplication as follows:

DeLUXE MIXTURE: All Large Blooming Size $1\frac{1}{4}$ to $1\frac{1}{2}$ " and larger for \$5.00 NET per 100, PREPAID.

DeLUXE MIXTURE: Same as above in Medium Size Bulbs, $\frac{3}{4}$ " in diameter and larger, for \$2.50 per 100, PREPAID.

CONNOISSEURS MIXTURE: We have virtually hundreds of varieties in too small amounts to list under name; this will include some very recent originations from many parts of the world and will include unusual colors and combination of colors. We offer this mixture at only a small fraction of what it cost us. Many pleasant surprises can be expected when these Bulbs Bloom.

CONNOISSEURS MIXTURE: Large Blooming Size, none less than $1\frac{1}{4}$ " for \$10.00 Net per 100, PREPAID.

CONNOISSEURS MIXTURE: Medium Blooming Size, $\frac{3}{4}$ " and larger for \$5.00 Net per 100, PREPAID.

Order Mixtures by Name Only; 25 Bulbs at the 100 rate, 5 Bulbs at 10 rate, but no single item at less than \$.15 and no orders for less than \$1.00 accepted prepaid in U. S. A. Orders for \$5.00 and up Insured and can be shipped any time (except in extreme cold weather) by Express. No Insurance against freezing by Parcel Post. If left to us we will use our best judgment at all times, as we want every order to reach our Customers in the best condition.

For assured satisfaction, send your Bulb Orders to

ATTENTION CUT FLOWER GROWERS

We have two splendid cut flower varieties, Golden Dream and Mr. W. H. Phipps, mixed, can't guarantee exact proportion, perhaps a little more Golden Dream, we offer very cheap. No. 3—\$1.20, No. 4—\$0.80, No. 5—\$0.60. Large lots, F.O.B. here, almost given away. If interested let us know amounts you can use.

FREE BULBS

Will be included with your order for Names and Addresses of Home-owning Neighbors and Friends who have a garden and may be interested in FINE GLADS, PEONIES, IRIS, etc. You can help us build up our Mailing List, help your friends and yourself all at the same time, without any additional expense. Your co-operation will be appreciated and well rewarded.

Yours truly,

A. J. ANDERSON

WHITE BEAR LAKE, MINN.

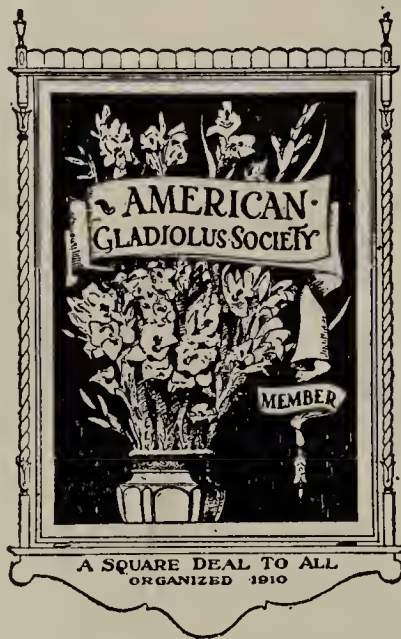

We Invite You

To join the Minnesota Gladiolus Society which is affiliated with the A. G. S. As a member you will receive the Monthly Magazine "The Gladiolus Review", well worth the membership fee, as it contains much valuable information about NEW varieties, good cultural hints, best known methods for the control of disease and "Gladiolus Thrip" which has proved so disastrous to many fine Glad Gardens. You will also have the privilege of exhibiting your blooms at the State or National Shows and be eligible to compete for valuable prizes, such as Medals, Trophies, Etc., and numerous other prizes offered, also Free Admission to such shows.

The cost is small and the benefit great. A good investment for any "Glad Lover". Send your application with \$2.00 to the Secretary.

Louis R. Fischer, Secy., 4824 Penn Ave., So.
Minneapolis, Minn.

Or if you wish send me the \$2.00 with your Bulb order and I will forward it for you to save you the trouble.

Alternative Offer

Or if you wish I will present you with a Membership including the "Gladiolus Review", FREE with a cash order for \$10.00 or more, in place of discounts, premium Bulbs, Etc. (For new Members only.)

Gladly yours,

A. J. ANDERSON,
White Bear Lake, Minn.
